

ECO PLASTIC CUPS

Your organization can help the environment by choosing compostable plastic cups. They are made from a vegetable based plastic and will break down within 40-60 days. Both cups and lids are 100% compostable.

The compostable plastic cups are made of a flexible plastic, so they won't easily break or crack. They are also crystal clear to allow for maximum branding visibility. Our cups can be paired with either flat straw slot or clear dome lids that are made from the same compostable plastic, which are designed to fit multiple size cups with one lid.

ECO-FRIENDLY CERTIFICATION

BPI © (Biodegradable Products Institute)

ASTM - Conforms to standards for municipal composting

Made from a PLA resin derived entirely from plants

Plant sources are domestically grown & annually renewable

100% compostable in municipal & industrial facilities
